

MT SWIB

STATE WORKFORCE INNOVATION BOARD

AGENDA ACTION REPORT

MEETING 2016 Fall SWIB Meeting

ITEM Workforce Services Division Reports

- Work-Based Learning Unit

ACTION REQUESTED None, Informational Report

PRESENTED BY Pam Watson, Bureau Chief Workforce Programs Bureau

INFORMATION

- Registered Apprenticeship has been talked about a lot in the past several years, and we're continuing to expand.
- Work-based learning includes models other than registered apprenticeship, so we are expanding our scope to look at some of these other areas, and how DLI can play a role in expanding WBL statewide.
- MT is part of a 6-state project under the National Governor's Association (NGA) called the WBL Policy Academy looking to scale WBL statewide
- 4 Positions tied to this Unit/Team
- Director of Industry Driven Workforce Partnerships (DLI/OCHE)
- Director of Post-Employment Training (RevUp)
- Apprenticeship Accelerator Director (ApprenticeshipUSA Grant)
- Apprenticeship Training Coordinator (HelpLink)
- Last 3 positions will make up a Unit within the Apprenticeship and WBL Section of DLI

MOTION No Board Motion is being requested

SYNOPSIS

- We consider registered apprenticeship to be the gold standard for WBL, but other models work too
- As partners in the workforce system, if other forms of WBL are better suited to a business owner, we can assist them
- Fits well with pre-apprenticeship
- Ties with our goals in MCIS to do more career research and exploration for students and job-seekers
