WORKFORCE SERVICES DIVISION REPORTS:
HELP-LINK:
Scott Eychner updated the board on HELP-Link, which is the Montana Department of Labor’s piece of the HELP Act. STATE PLAN UPDATE:

ONE-STOP CERTIFICATION PROCESS:
Shannon Lewis walked through the updated One-Stop Certification process that incorporated the new provisions under WIOA. Unlike in years past WIOA requires that states use a competitive process for selecting One-Stop Operators. Because Montana is a single-area state it is seeking one overall One-Stop Operator that can serve the entire state. Montana’s process will require applicants to give a detailed overview of the services provided within its One-Stop Centers. The detailed overview will contain the following information:
- Executive Summary;
- Organizational chart and structure, including its firewall plan;
- Organizational Philosophy, including an information sharing plan;
- Organizational marketing, including the organization’s name, branding, and outreach;
- Organizational goals, including its mission statement and short and long-term goals;
- Detailed information on services and partnerships for each program in each community it serves;
- Detailed information on facilities in each community;
- Detailed information on Community Action Teams for each community; and
- Detailed information on business services for each community it serves.

Once the full SWIB approves the process, the application will be widely distributed by sending it out to all interested persons, publishing it on the main Department of Labor & Industry website, publishing it on the Department of Administration’s procurement website, and using the Department of Administration’s interested persons list.

The full board approved the WIOA Committee’s recommendation that the SWIB adopt the new One-Stop Certification process.

ADJOURNMENT:
Chair Crum adjourned the meeting at 11:46 PM.
