NEW BUSINESS:

YOUTH POLICY: Ms. Demaray discussed the updated Youth Policy, which was updated to add additional clarification to the policy based on the WIOA federal performance audit that was completed last year. The most substantive changes to the policy were in the language around incentives offered to youth for performance. Previously, incentives were allowed for attendance and grade-point average; however, with alignment with federal guidance, the incentive program is now tied to literacy, numeracy, training and work experience. In addition to the substantive changes to incentives, the funding piece of the policy was removed from the policy because it fluctuates annually based on the allocation received from the federal government.

Chair Weber opened up the conversation to public comment and the committee and providers discussed the changes and discussed whether or not the incentives are allowable for participants in the follow-up, post-employment of a student. The
consensus was that incentives are still allowable in the follow-up phase of the youth participant.

Chair Weber asked for a motion to approve the Youth Policy.
