

MT SWIB
STATE WORKFORCE INNOVATION BOARD
Agenda Action Report

MEETING	SWIB Spring Meeting, June 8th and 9th
ITEM	Sector Strategies Southwest Montana Regional Workforce Coalition
ACTION REQUESTED:	Action Item
PRESENTED BY:	Jackie Haines-HRDC D-IX Economic Development Director Meagan Lannan-MTDLI-WSD –Manager Job Service Livingston
Recommendation:	1.) In relation to <i>MOTION 1</i> , this model provides a solution to convening partners that is replicable and applicable regardless of community size. Provides alignment between all partners and provides common starting point/language. 2.) In relation to <i>MOTION 2</i> , seeking to partner with SWIB in being the pilot organization to trial and validate model to mitigate potential barriers to implementing local workforce solutions.
Motion:	1.) We propose a motion that the SWIB adopt this model to establish a statewide local workforce development model that establishes and ensures alignment with a common starting point and language for workforce development, education systems, economic development partners and industry. 2.) We propose a motion that the SWIB adopt our workforce development partnership as the pilot organization to trial and validate this model.

Synopsis: Presentation Summary: Our group will be presenting a structural solution to implementing a local workforce model. This structure is clear, replicable and applicable to all types of communities.

Motivation supporting proposed motions:

- 1.) This is needed to reduce duplication of effort and inefficiencies between industry, workforce and economic development solutions.
- 2.) This is needed to reduce transaction costs between statewide networks of education partners, business, and labor organizations.
- 3.) A multiple customer model is needed, one that includes businesses, industry and the workforce.
